

Medical Director

January 2008

The term Medical Director signifies that an individual physician has been engaged by a healthcare facility to perform administrative functions on behalf of the facility.

The policy of Professional Liability insurance provided for an individual physician does not extend to provide protection for service as a Medical Director.

It is appropriate that this protection be provided by the healthcare facility.

We recommend a written contract of engagement confirming responsibility for both Professional Liability insurance in compliance with the Indiana Medical Malpractice Act and Directors & Officers Liability, in addition a requirement that a confirming certificate of insurance be provided.

Please contact MBI for risk management advice and consult with your Attorney for contractual advice.
