

Financial Stability We All Can Trust

Warren Buffett's Berkshire Hathaway

As the economy is in a state of turmoil, consumers everywhere are reconsidering where to invest and entrust their financial assets. Physicians should be no different. One of the greatest concerns for physicians is who is protecting their practice, their reputation and their livelihood. They want assurance that their malpractice insurance company is there for the long haul and has the financial backing to protect them if the worst should happen- an allegation of malpractice. They want assurance that their malpractice insurance investment will pay off.

Medical Protective can provide your physicians with this confidence. We have survived and flourished through all of the financial crises of the past century. Now, with the backing of Warren Buffett's Berkshire Hathaway, we look forward to protecting our physicians throughout the next century as well. The longevity and stability of Medical Protective combined with the financial strength and conservative position of Warren Buffett's Berkshire Hathaway ensures that we will have the resources to provide your clients with the best defense, and if necessary, pay their claims.

"My message to them (CEOs) is simple: run your business as if it were the only asset your family will own over the next hundred years."

– from Warren Buffett's Letter to Shareholders, 2004
